

# SANITISE NOW

BE AWARE, SANITISE WITH CARE

[www.killis.co.uk](http://www.killis.co.uk)

# ABOUT US

80% of infectious diseases are transmitted by our hands.

SANITISE NOW provides essential sanitising solutions to companies and venues across the world, keeping employees and customers protected from bacteria and viruses.

**NHS CHARITIES  
TOGETHER**

We are proud to be able to support NHS charities by donating 5% of our annual profits.

# FOAM SANITISER

# SANITISE NOW

## OUR FOAM SANITISER

- UKAS and NHS approved sanitising foam
- Foam creates a 3-4 hour barrier to germs which gels do not – less usage needed
- Our sanitiser isn't flammable, so it can be safely stored in your venues.
- Our foam has zero bleach or alcohol. Alcohol based sanitiser can irritate some skin types. Some religions may also refuse to use gels because of alcohol content
- Foam dries quickly and doesn't leave hands sticky; more importantly, it won't leave floors slippery
- Our foam has a pleasant scent which most commercial gels don't have
- Manufactured in the UK
